

ORANGETOWN HIGHWAY DEPARTMENT

WE ARE ON THE LOOKOUT FOR POTHOLES!

Potholes are created when water that seeps under the pavement freezes and thaws. Potholes are more common in late Winter/early Spring as temperatures fluctuate. In order to keep all roads in the Town of Orangetown in the best possible condition, we ask that if you spot a pothole or other hazard, please contact the proper authority in order to rectify the condition as quickly as possible.

Contact information for pothole reporting, on roads that are not under the jurisdiction of the Town of Orangetown are listed below.
