Re: Petition for Change of Zone by MJDM Crooked Hill Road LLC.
Premises: 110 West Crooked Hill Road, Pearl River, NY 10965
SBL 68.11 - 3 - 37 & 38; 1.6+/- acres.

Dear Town Board Members:

Please accept and consider this letter in support of the above referenced Petition, which is submitted by your Petitioner, MJDM Crooked Hill Road LLC (MJDM), as owner of the above referenced property. This office represents the Petitioner in this application. The Petitioner is requesting a change of zoning designation for the subject property from LIO (Light Industrial-Office) to the LI (Light Industrial) zoning district, in order to permit the continued use and business operations on the site. The Petitioner is also seeking to resolve current enforcement actions against it by the Town concerning the use and occupancy of its property.

Although MJDM is the current owner, having purchased the site in 2019, the historical use of the property has been for light industrial / commercial purposes for decades. A recent search of the Town's building department records pursuant to a FOIL request, revealed that use variances have been issued by the ZBA to permit an automobile repair business to operate on the premises and which also permitted outdoor storage of vehicles. Although these uses are permitted in an LI zone, they are not permitted in the LIO zone where the subject property is situated.

My review of the available records on file in the Town's building department for this property indicate that a number of use variances have been issued over the past 50+ years.

Portions of the file appear to be incomplete, which is not unusual due to the passage of time. The file does contain references to use variances issued by the ZBA, but copies of the actual ZBA decisions are missing from the file. In order to give the Board an overview of the prior use variances issued by the ZBA, below is a list of the relevant documents I was able to review in the building department files, which are as follows:

1.) On August 3, 1965, a Certificate of Occupancy (Certificate No. 9970) for a "Shop" was issued to the then owner, Edward J. Huegel; Permitted use: Two-story equipment repair shop (Bd. of App. 02/26/1964).

2.) On February 19, 1975 a Certificate of Occupancy (Certificate No. 11014) for an "Addition" was issued to the owner, Edward J. Huegel; Permitted use: New 16' x 27'8", addition to existing commercial building for office space (Bd. of Appeal Approval 01/05/1966);

3.) At a ZBA meeting of July 17, 1974 (ZBA 74-87) the Board granted a Use Variance to Leonard Schweizer (a contract vendee) to occupy the first floor of the existing two-story commercial structure for use as an Auto Repair shop with accessory outside storage for 30 vehicles in the LIO zone.

- Mr. Leonard Schweizer purchased the subject property by deed, dated November 15, 1974, from Ms. Peggy Huegel.

4.) On February 20, 1975, a Certificate of Occupancy (Certificate No. 16089) for a "Building" was issued to the owner, Leonard Schweizer; Permitted use: Auto Body Repair Shop and office space with accessory Outside Storage (ZBA July 22, 1974); LIO zone.

5.) At a ZBA meeting of January 21, 1976 (ZBA 76-11) the Board granted an "extension of non-conforming use" to the owner Leonard Schweizer of "Modern Auto Body "for a New Building, 40' x 80', a "one story building to be used for Auto Body repairs and storage." (3,200 sq. Ft.); LIO zone.

6.) At a ZBA meeting of April 19, 1978 (ZBA 78.17) the Board granted to Leonard Schweizer (a contract vendee) an "extension of non-conforming use for additional outdoor space for storage of autos by Modern Auto Body Repair Shop."

- Mr. Leonard Schweizer purchased additional adjoining property by deed, dated May 24, 1978, from American Cyanamid Co. The acquisition of this additional property constitutes the size of the premises as it exists today, at 1.6 +/- acres.

These records reflect that while the subject premises was in the LIO zoning district, numerous use variances have been issued over the years to allow the premises to be developed

and operate as an automobile repair business and to allow the outdoor storage of vehicles. Essentially the premises have been permitted to function and operate as if it was in the LI zoning district. Permitting the zone change and granting this Petition will not result in future uses which are materially different from the uses the property has been put to over the past fifty or more years.

In 1985 the Town Board granted the petition of American Cyanamid Company for a zone change from LIO to LI zoning district for the 10-acre parcel immediately to the south and adjacent to the subject property. Since that time my client's parcel has been the only remaining LIO zoned property in that area. As you can see by reference to the Town's Zoning Map (see, Exhibit "D" to Petition) your Petitioner's property has become a small island of LIO zoning district surrounded by differing land uses. The approval of this Petition will bring this property's zoning designation into conformity with its adjacent neighbor, and it will be consistent with those uses permitted on the property for the past 50 years.

The granting of this Petition will permit my client to continue doing business in the Town of Orangetown and allow it to make proper and lawful use of its real property. The zone change will not adversely or negatively impact the surrounding area properties. This is an "Unlisted Action" under SEQRA.

Respectfully submitted,

Stephen M. Honan

TOWN BOARD – TOWN OF ORANGETOWN

Petition of

MJDM CROOKED HILL ROAD LLC

**PETITION FOR
ZONE CHANGE**

For a Change of Zoning Designation for two (2) Parcels located at 110 Crooked Hill Road, Pearl River, New York and Designated on the Tax Map of the Town of Orangetown as Section 68.11, Block 3, Lots 37 and 38, from LIO to LI Zoning District.

TO THE HONORABLE TOWN BOARD of the TOWN OF ORANGETOWN:

1. Your Petitioner is the owner of the above-referenced real property. Although consisting of two tax parcels, the property is used and operated as a single site and consists of just over 1.6 acres. Both parcels are located in the LIO (Light Industrial-Office) Zoning District. The property fronts upon and is located on the south side of Crooked Hill Road. The Consolidated Railroad (NJT) tracks and railroad right-of-way are located adjacent to the east side of the property and Route 304 is adjacent to the west side of the property. Abutting the property to the south is a 10-acre parcel which was recently developed as the Hillside Commercial Park (SBL 68.11 - 03 - 39 & 40) and is in the LI (Light Industrial) zoning district.

2. The subject property was purchased by the Petitioner on May 30, 2019, from the Schweizer Family (Leonard Schweizer and the Leonard Schweizer Living Trust) who had owned the property since 1974. During Mr. Schweizer's ownership the site was used as an automotive repair business. At the time of the purchase by the Petitioner, the property was improved with two commercial buildings and with a number of smaller accessory out-buildings. The site was being used for the outdoor storage of automobiles and equipment, in addition to the storage of landscape trucks and equipment. A copy of a property survey prepared by Jay Greenwell, PLS, dated 12/16/19 (last revised 09/07/22), is annexed as Exhibit "A".

3. Prior to the closing of title on the property, a municipal search was performed which revealed no violations against the property. An informal consultation with the Town's assistant building inspector, which included multiple visits to the property, indicated there were no issues with respect to the current use and occupancy of the premises and no enforcement actions were contemplated. Following those visits, however, the assistant building inspector directed the removal of certain rooftop signage, which was performed by the prior owner in anticipation of the closing of title. Upon completion of its due diligence inquiries the Petitioner agreed to close title. After the closing of title, the Petitioner continued to use the property in the same manner as it had been used by the previous owner, retaining most of the pre-existing tenants and adding some of his own storage. However, a short time thereafter the Town commenced enforcement proceedings in Justice Court against the Petitioner alleging violations of the Town Code in regard to the use and occupancy of structures on the premises. In 2022 a Code Enforcement Officer alleged the property was being used as a "contractor's storage yard" without a certificate of occupancy. In order to resolve the pending enforcement actions and safeguard its significant financial investment in the property and ensure its ability to continue using the premises to conduct its business into the future, the Petitioner respectfully submits this application seeking to change the zoning of its property from LIO to LI.

4. A "contractor's storage yard" is a permitted use in the Town of Orangetown. Section 8.10 of the Town's zoning code, entitled "Contractor's Storage Yard" indicates this use is permitted in the LI District as a conditional use upon application to the planning board. Reference to the use table for the LI District indicates that conditional use approval is needed from the planning board for, "other open storage yards". To the contrary, the use table for the LIO District makes no mention of "open storage yards" and it appears that a "Contractor's

Storage Yard” is a prohibited use in the LIO District. Therefore, the Petitioner seeks a zone change of the property to the LI District, and thereafter anticipates an application to the planning board for conditional use approval of the site as a “Contractor's Storage Yard”. A copy of the Use Table for the LI District, is annexed hereto as Exhibit “B”. A copy of the Use Tables for the LIO and LO (Laboratory Office) Districts, are annexed hereto as Exhibit “C”.

5. This is a meritorious application. The subject property is currently the only LIO zoned property in the surrounding area. Attached hereto as Exhibit “D” is a copy of a portion of the Town’s zoning map depicting the site in question and the surrounding zoning districts (The subject property has been highlighted in yellow for ease of reference). As depicted on the zoning map, the subject property can be likened to a small island of “LIO zone” surrounded by different zoning districts. Attached hereto as Exhibit “E” is an aerial photograph depicting the property and the current surrounding properties and land uses. The aerial photograph clearly shows that the subject property is sufficiently sequestered from dissimilar land uses to the east, west and north of the property. The large parcel which abuts the property's southern boundary is in the LI zoning district and that land is now commercially developed. Accordingly, the granting of this petition will have no impact upon the commercial property to the south, as their uses are of a similar commercial nature. Granting this petition is not expected to adversely impact other surrounding land uses.

6. This application is consistent with the provisions of the Orangetown Comprehensive Plan, recently enacted on October 10, 2023. The Comprehensive Plan, at page 66, recommends improving the zoning code by considering strategies which, “Consolidate similar commercial zoning districts to streamline the provisions, improve readability, facilitate consistent limitation of the zoning code, and support economic growth.” This application will

achieve that goal by consolidating the zoning designations of the subject parcel with its southern neighbor in a common LI zoning district.

7. Section 10.522 of the Zoning Code sets forth areas of inquiry with respect to a proposed zone change. Those particular considerations and the Petitioner's responses thereto (in *italics*), are set forth as follows:

(a) Whether the uses permitted by the proposed change would be appropriate in the area concerned.

The uses permitted by the proposed zone change are already in existence at the site and the current uses have been in place for many years. The current use of the site do not interfere with surrounding land uses in the area. The zone change is compatible with the uses of the adjoining site to the south.

(b) Whether adequate public school facilities and other public services exist or can be created to serve the needs of any additional residences likely to be constructed as a result of such change.

No public school facilities will be required as no additional residences will be constructed. The existing and proposed zone change do not permit residential use.

(c) Whether the proposed change is in accord with any existing or proposed plans for providing public water supply and sanitary sewers in the vicinity.

The site is adequately served by the existing public water supply and sanitary sewer systems and no upgrades to these systems is contemplated.

(d) The amount of vacant land which is currently zoned for similar development in the Town, and particularly in the vicinity of the area included in the proposed amendment, and any special circumstances which may make a substantial part of such vacant land unavailable for development.

The area in the vicinity of the site is currently developed. The proposed zone change will allow the current uses on the site to continue.

(e) The recent rate at which land is being developed in the proposed district in the Town, and particularly in the vicinity of the area included in the proposed amendment.

The proposed change is not expected to affect other parcels in the area. The adjacent LI zoned lands to the south are currently developed.

(f) The effect of the proposed amendment upon the growth of existing communities in the Town as envisaged by the Comprehensive Plan.

The proposed change is not expected to affect the growth of existing communities in the Town.

(g) Whether the proposed amendment is likely to result in an increase or decrease in the total zoned residential capacity of the Town and the probable effect of such a change on the cost of providing public services.

The proposed zone change will not affect the total zoned residential capacity of the Town.

(h) Whether other areas designed for similar development are likely to be so developed if the proposed amendment is adopted, and whether the designation for such future development should be withdrawn from such areas by further amendment of the Zoning Map.

The proposed zone change only affects this particular site and granting the change will not have an impact on other development in the Town.

(i) If the proposed change involves a change from a residential to a nonresidential designation, whether more nonresidential land is needed in the proposed location to provide commercial services or employment for the residents of the Town.

Not applicable. Currently the site is non-residential and the change proposed is to a similar non-residential use.

8. Since taking title to the property in 2019, MJDM has undertaken extensive cleanup work and removal of debris which had accumulated on the site under previous ownership. Through the efforts of MJDM the physical appearance of the premises has now been considerably improved.

9. In further support of this Petition a narrative letter has been submitted for the Board's consideration. Your Petitioner respectfully requests that the zoning designation for the subject premises be changed from LIO to the LI zoning district.

Pearl River, NY

TOWN BOARD

ACCEPT PETITION/REQUEST FOR ZONE CHANGE AND DIRECT CIRCULATION OF PROPOSED LOCAL LAW, AMENDING TOWN ZONING MAP

WHEREAS, the owner of premises located at 110 West Crooked Hill Road, Pearl River, New York, (Tax Lot 68.11-3-37 & 38) being located in the “LIO” (Light Industrial-Office) zoning district, has petitioned the Town Board to change the zoning classification of the property to that of “LI” (Light Industrial), a zoning district that directly abuts the property; and

WHEREAS, the Town Board wishes to proceed with its consideration of the proposed action, toward which end it wishes to commence the environmental review process, as well as review by other interested agencies; and

WHEREAS, upon review of the Petition, and a Short Environmental Assessment Form prepared at the Town Board’s request by the Office of Building, Zoning, Planning and Administration and Enforcement, and related documents and filings, the Board makes the following preliminary determinations:

1. The proposed action is one subject to review under the State Environmental Quality Review Act (“SEQRA”);
2. The proposed action as an “Unlisted” action; and
3. The following are involved or interested or involved agencies in the review process:
 - Orangetown Planning Board;
 - Rockland County Department of Planning;

- Rockland County Highway Department

NOW, THEREFORE, BE IT RESOLVED, that the Town Board hereby declares its intention to serve as Lead Agency for the purpose of environmental review under SEQRA, and directs that a Lead Agency Coordination Letter with relevant documents be circulated to and among the various above referenced agencies; and

BE IT FURTHER RESOLVED, that the circulation to the Rockland County Department of Planning further be for the purpose of review pursuant to General Municipal Law §§ 239- 1 & m; and

BE IT FURTHER RESOLVED, that, pursuant to Town Code Chapter 43, § 10.5, the Town Board hereby refers the said Petition and a proposed Local Law, amending the Town Zoning Map, to the Town Planning Board, inviting its input regarding, among other things, the implications of such an amendment, and requesting a response within 30-days.
