Dear Supervisor Kenny and Members of the Town Board:

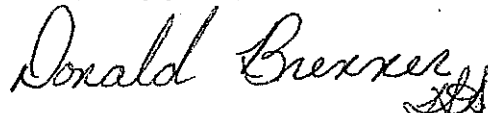

My clients Hegarty Homes, Inc. and Hudson Valley Nursery, Inc. are attempting to develop a parcel of land located at Western Hwy and Ellsworth Drive, Blauvelt, New York 10913 for uniform residential housing.

Accordingly, I enclose (1) a Petition for Amendment to the Zoning Ordinance of the Town of Orangetown from an "R-80 District to an "R-15" District.

The client respectfully requests that this matter be placed on the next Town Board Agenda for final consideration.

If you require additional information feel free to call me.

Very truly yours,

Donald Brenner

IN THE MATTER OF THE
PETITION OF
HEGARTY HOMES, INC.
AND
HUDSON VALLEY NURSERY, INC.
AMENDMENT TO THE ZONING ORDINANCE
OF THE TOWN OF ORANGETOWN FROM AN
"R-80" DISTRICT TO AN "R-15" DISTRICT

PETITION

TO THE TOWN BOARD OF
THE TOWN OF ORANGETOWN

The undersigned petitioner respectfully petitions your Honorable Board as follows:

FIRST:

HEGARTY HOMES, INC. and HUDSON VALLEY NURSERY, INC., whose principal place of business is located at 75 Michael Roberts Court, Pearl River, NY 10965, are the owners of properties located at Western Highway and Ellsworth Drive in the hamlet of Blauvelt, more particularly bounded and described in Addendum "A" annexed hereto.

SECOND:

The properties described in Addendum "A" are known and designated on the Tax Map of the Town of Orangetown as:

<u>Section</u>	<u>Block</u>	<u>Lot</u>
70.05	1	14.1
70.05	1	14.2
70.05	1	17.1

THIRD:

Annexed hereto and marked Exhibit "A" is a copy of the Vicinity and Zoning Area Map; and Exhibit "B" is a copy of the Tax Lots which are the subject of the Petition and of the surrounding parcels.

FOURTH:

Annexed hereto and marked Addendum "B" is a list of names and addresses of all owners owning property within 500 feet of the properties which are the subject of this application as the same appears on the tax roll of the Town of Orangetown.

FIFTH:

That the properties which are the subject of this Petition comprise approximately 6.950 acres.

SIXTH:

Said properties are presently zoned R-80.

SEVENTH:

Pursuant to the Town Law of the State of New York, and the Zoning Ordinance of the Town of Orangetown, petitioners hereby request that the Zoning Ordinance be amended to place the aforesaid real property, as described and shown in Exhibit "B," in an R-15 Zoning

District which would allow the development of uniform residential housing under the requirements of that zone. (See Exhibit "C" and Exhibit "D")

EIGHTH:

That said proposed change would be compatible with the present and proposed uses of the adjoining and neighboring properties. Further, this would be the most practical way, economically and beneficially, in which the property could be utilized.

NINTH:

That said proposed use would be in the public interest of the residents of the Town of Orangetown in that:

- (a) the development of the property under an R-15 Zone would establish a substantial tax ratable for the Town of Orangetown;
- (b) the development of the property under an R-15 Zone would fill a need for the residents of the Town of Orangetown;
- (c) the development of the property under an R-15 Zone would be consistent with the general character of the immediate area surrounding the subject premises, which is principally residential.
- (d) the development of the parcel under an R-15 Zone would permit the developers to install needed water and sewer facilities to this area;
- (e) the granting of such relief as is sought in this Petition will be the most appropriate use of the subject parcel, and will promote the general health and welfare of the community, will preserve property values and will be beneficial to the owners.

TENTH:

That the parcel which is the subject of this Petition can best be developed under the proposed R-15 Zone.

ELEVENTH:

That the subject premises are not within 500 feet of any of the following:

(a) any county or state park or recreation area;

(b) any right-of-way of any county or state park or recreation area, expressway, or other limited access highway;

(c) any county or state owned land on which a public building or institution is situated.

WHEREFORE, petitioner respectfully prays that your Honorable Board take such steps and such action as may be necessary to grant the relief sought in this Petition.

Dated: April 12th, 2024

Respectfully submitted,

Re: Onyx Management Group, LLC
Watercourse Diversion Permit Request
64 & 140 Leber Road, Blauvelt, New York

Dear Hon. Supervisor Kenny & Members of the Town Board:

This firm represents Onyx Management Group, LLC.¹ (the “Applicant”), the manager of the properties identified as Section 70.06, Block 1, Lot 50.4 (“64 Leber”)² and Section 70.06, Block 1, Lot 47 (“140 Leber”)³ on the Town of Orangetown Tax Map and commonly known as 64 and 140 Leber Road (collectively, the “Property”). The 64 Leber Property is located within the LO “Laboratory Office” and R-40 “Low Density Residential” Zoning Districts, and the 140 Leber Property is within the R-40 District. The Property is part of the larger Hudson Crossing development owned by the Applicant, previously known as Bradley Corporate Park.

The Applicant is specifically proposing to lease a section of the Property to Rivian, LLC for use as an accessory 633-space parking area for the vehicles that are pre-ordered by customers and are awaiting preparation and customer pickup at Rivian’s nearby facility at 800 Bradley Hill Road, which was approved by the Planning Board in April 2023. *See* PB # 23-13. The Property is currently an unimproved vacant lot, and as part of the site development, the Applicant proposes to construct a new paved parking area, together with appropriate striping, curbing, directional arrows and traffic signage, two 30-foot access driveways, significant additional landscaping, and related improvements. The Applicant also proposes to merge the contiguous 64 and 140 Leber properties to create one 13-acre parcel. The Applicant is currently before the Planning Board in connection with its request for Site Plan Approval to permit the 64 Leber property for use as an accessory parking lot. Following two public hearings, at its March 27, 2024 meeting the Planning Board granted Preliminary Site Plan and Resubdivision Approvals and also adopted a Negative Declaration under SEQRA, concluding that the proposed action will not have any significant adverse environmental impacts.

¹ Onyx Management Group, LLC has been authorized by the owners of the property, to manage the properties, including leasing the properties and applying for any necessary permits and land use approvals. Therefore, Onyx Management Group, LLC is the Applicant for the Watercourse Diversion Permit application.

² Owned by PG-OE 64 Leber Road Owner LLC

³ Owned by PG-OE 140 Leber Road Owner LLC

The Town of Orangetown Department of Environmental Management and Engineering (“DEME”) has determined that the proposed improvements to the stormwater management and drainage systems at the Property require a Watercourse Diversion Permit from this Board. The Applicant filed a Watercourse Diversion Permit request on March 28, 2024 and, in response to a request from DEME for additional information, submitted a supplemental Watercourse Diversion Permit Narrative and Watercourse Permit Exhibition Package prepared by Dynamic Engineering on April 19, 2024. DEME has reviewed the Applicant’s Watercourse Diversion Permit request (including the supplemental information) and provided additional comments in a memorandum dated May 2, 2024. Enclosed for your review is a letter prepared by Dynamic Engineering responding to the DEME comments therein. It is respectfully submitted that all remaining DEME comments have been addressed and the Watercourse Diversion Permit should be granted.

Per my discussion with the Town Attorney, kindly place this matter on the May 21, 2024 Town Board agenda for consideration of the Applicant’s request for a Watercourse Diversion Permit. If you have any questions or require additional information, please do not hesitate to contact our office.

Very truly yours,

Seth M. Mandelbaum

Dear Hon. Supervisor Kenny and Members of the Town Board,

On behalf of our client, Onyx Equities, LLC, enclosed please find the following items consulting our Town Board submission for a Watercourse Diversion Permit for the above referenced project:

Enclosed please find the following items constituting our re-submission regarding the above-referenced project:

- Three (3) signed copies of the Watercourse Diversion Permit Narrative and Supplemental Responses prepared by our office dated April 19, 2024, last revised May 9, 2024;
- Three (3) copies of the Watercourse Diversion Permit Exhibit Package prepared by our office dated April 19, 2024, last revised May 9, 2024; and
- Three (3) signed copies of the Watercourse Diversion Permit Request prepared by McCullough, Goldberger & Staudt, LLP dated May 9, 2024.

Below are sequential responses to the comment letters prepared by the Borough Professionals:

Memorandum prepared by Eamon Reilly, P.E. Commissioner of the Department of Environmental Management and Engineering dated May 2, 2024:

1. The cover letter to the Town Board should include the words "Watercourse Diversion Permit Request" (most likely in the "RE:" portion of the top of the letter.)

This cover letter, along with the cover letter prepared by McCullough, Goldberger & Staudt, LLP, have been revised to include "Watercourse Diversion Permit Request" in the "RE:" shown above.

2. Page 3 of 10- Watercourse Diversion Permit-Last paragraph of section - wording (or similar) shall be added as follows " ... The proposed development plans to demolish, fill and cover the existing watercourse, **including all of the existing watercourse piping.** "

The narrative has been updated to include the wording regarding the demolition of all existing stormwater piping.

3. Page 3 of 10-Existing Conditions- paragraphs 4 & 5 appear to be mixed up in what they are describing. Specially, paragraph 4 begins by referencing the east portion of the site but describes the piping (30" CPP) which is on the west side of the site. The same holds true for paragraph 5.

The Existing Conditions Section, paragraphs 4 and 5, have been updated to reflect the existing eastern and western piping on the Overall Existing Conditions Exhibit (Sheet 1). The eastern piping has been updated to be a 24" RCP at 183 feet in length and the western piping to be a 30" RCP at 35 feet in length per the original survey.

4. Page 3 of 10-Existing Conditions -Paragraph 5 makes no mention of the "existing pipes" (as depicted on the Overall Existing Conditions Exhibit - sheet 1.) The number of pipes, sizes, lengths and material(s) for these existing pipes shall be listed in this paragraph.

Paragraph 5 has been updated to reflect the existing pipe and its characteristics located on the western portion of the site as depicted on the Overall Existing Conditions Exhibit (Sheet 1).

5. Pages 6 of 10 thru 8 of 10 - Site Photos - The location and direction of the photos presented shall be added to the Overall Existing Conditions Exhibit - sheet 1.

A Site Photo Location Plan has been provided as a part of the "Watercourse Diversion Exhibit Package" where each of the photo's location and direction have been depicted.

6. Overall Existing Conditions Exhibit - sheet 1 - The number, sizes, inverts, lengths and material(s) of the piping shown at the east end of site shall be shown and labeled on this sheet.

The Overall Existing Conditions Exhibit (Sheet 1) has been updated to show all existing pipes and their characteristics, which include their number, size, inverts, lengths, and material, on both the eastern and western portions of the site.

7. Overall Existing Conditions Exhibit - sheet 1 - Label property line between lots 50.4 & 47 and label each lot.

Lots 50.4 and 47 have been labeled with their respective parcel data as well as the property line, labeled as "Property Boundary Line" on the Overall Existing Conditions Exhibit (Sheet 1).

WATERCOURSE DIVERSION PERMIT

The project site is located at 64 & 140 Leber Road, Town of Orangetown, Rockland County, New York and is classified as Section 70.06, Block 1, Lots 50.4 & 47. The existing conditions of the tract have been verified by the ALTA/NSPS Land Title Survey as prepared by Control Point Associates, Inc. dated January 21, 2021, last revised September 20, 2022.

The Overall Existing Conditions sheet (Sheet 1 – Exhibit Set) illustrates two (2) drainage ditches, defined below as a watercourse, which collect and discharge overland flow on the eastern and western portions of the site.

A watercourse is defined per Town of Orangetown Code, Chapter 30D, Article II, Section 6 (Sediment and Erosion Control and Stormwater Management, Stormwater Control, Definitions):

As any permanent or intermittent natural or artificial stream, river, creek, ditch, channel canal, conduit, culvert, drain, waterway gully or ravine, in and including any area adjacent thereto, in which water normally flows per.

The Overall Site Plan (Sheet 3 – Preliminary and Final Site Plan (Rev.2)) and Drainage and Utility Plans (Sheets 11-13 – Preliminary and Final Site Plan (Rev. 2)) illustrates that the development proposes an accessory parking lot of 633 spaces with an underground infiltration system to mitigate the newly created impervious surfaces. The proposed development plans to demolish, fill and cover the existing watercourse, including all of the existing watercourse piping. 100% of new impervious surfaces will be captured, routed to, and treated (by NYSDEC approved stormwater management practices) proposed on site. The modification to the existing drainage pattern triggers the required Watercourse Diversion Permit from the Town of Orangetown Town Board.

EXISTING CONDITIONS

Currently the parcel is undeveloped consisting of woodlands, brushlands and gravel/dirt paths. In the parcel's undeveloped state, an existing watercourse is located in the center of Lot 50.4.

Existing topography of the site is heavily influenced by the existing berm, at about 20' of height, at the southern portion of the site grading towards the northern portion of the site. The northern portion of the site continues with a heavy slope towards the existing warehouse building. There is an additional soil mound along the eastern portion of the property in the residentially zoned district approximately 20' in height.

The existing watercourse is separated by a highpoint located within the center of the site. Areas both east and west of the highpoint are collected by earthen drainage ditches, piping and conveyed to a discharge point.

At the eastern portion of the site, existing grading promotes overland flow to the earthen drainage ditch where a 24" Reinforced Concrete Pipe, 183 feet in length, exists. Based on the existing inverts, the 24" RCP is pitched from east (Invert 125.2) to west (Invert 124.1) which does not follow the topography of the eastern drainage ditch. Due to the invert elevations, this pipe does not convey or collect any runoff.

A ditch on the western portion of the site first collects stormwater runoff before being conveyed through a 30" Reinforced Concrete Pipe, 35 feet in length connecting to the earthen ditch at the western side of Lot 50.4. The remainder of the contributing area to the western ditch is collected via overland flow and drains westbound before being uncontrollably discharged to the western portion of the site.

A Stormwater Conveyance System Capacity Analysis has been included within the Watercourse Diversion Permit Exhibit Package. The purpose was to calculate and analyze the capacity existing pipes on site for a 100-year storm event and their contributory areas depicted on the Existing Ditch Inlet Area Map (Sheet 3). The 100-year storm event was analyzed to match the proposed stormwater system design which utilized the 100-year storm event.

It was determined that the western 30" RCP has enough capacity to convey the contributory drainage area to the western existing watercourse, but the pipe velocity exceeds acceptable rates, and the discharge may cause soil erosion and has potential to adversely affect downstream areas.

Additionally, the eastern 24" RCP was analyzed, however as noted above, this pipe does not follow the existing topography of the eastern drainage ditch, nor convey or collect any stormwater runoff.

EXISTING DRAINAGE CALCULATIONS

The site has been evaluated using the TR-55 'Urban Hydrology for Small Watersheds' standards with the following drainage areas for the existing drainage ditches on site.

Drainage Ditch West: The contributory area of the drainage ditch includes areas of woodlands, brushlands, gravel and grasslands on the south and southwest portion of the parcel.

Drainage Ditch East: This area consists of areas of woodlands, brushlands, gravel and grasslands on the south and southeast portion of the parcel.

AERIAL IMAGES

Per the satellite captures of Google Earth, the subject watercourse discussed in this narrative was dug between the approximate dates of June 2010 and April 2016 while the site still remaining undeveloped. See the images below captured from Google Earth.

SITE PHOTOS

A site visit was conducted on February 7th, 2024, and photos of the existing ditch on the western and eastern portions of the lot are depicted below. A photo location map has also been supplied as a part of the submission for the Watercourse Diversion Permit which includes the location and direction of each of photo.

PROPOSED CONDITIONS

The proposed project will include the construction of 633 parking spaces as well as other respective site improvements such as lighting, landscaping, grading, drainage, and fire protection services.

To offset set any adverse impacts to the addition of impervious areas, a NYSDEC SMP I-4 Underground Infiltration Basin has been designed and developed in conformance with the current New York State Stormwater Management Design Manual as a means of mitigation for increased impervious surfaces and of the existing watercourse on site.

PROPOSED DRAINAGE CALCULATIONS

The site has been evaluated using the TR-55 'Urban Hydrology for Small Watersheds' standards with the following drainage areas for the existing drainage ditches on site.

Study Area UG Basin: This area consists of the entire parking area and landscaped islands. Stormwater runoff generated from this area is collected by multiple on-site inlets and conveyed to a proposed infiltration basin. Runoff collected and discharged will be conveyed to the existing conveyance system to the north.

Study Area North Undetained: This drainage area consists of the proposed driveways, open space and wooded areas around the perimeter disturb as a part of the proposed development. Collected runoff will drain to the existing conveyance system to the north.

Study Area West Undetained: This drainage area consists of the proposed driveways, open space and wooded areas around the perimeter disturb as a part of the proposed development. Collected runoff will drain to the existing conveyance system to the west.

The I-4 Underground Infiltration System collects overland flow from areas surrounding the site and conveys all contributing areas to hydrodynamic separators which pre-treat 100% of the Water Quality storm event. Stormwater runoff then enters the underground infiltration system, 6 rows of stone embedded 36" perforated

pipe, which has been sized to infiltrate the entire WQv and attenuate flows of the 1-, 10- and 100-year storm events through an outlet control structure.

All calculations regarding the design and compliance of the NYSDEC SMP I-4 Underground Infiltration System can be found within the Stormwater Pollution Prevention Plan last submitted to the Town of Orangetown on February 16, 2024.

WATERCOURSE DIVERSION IMPACTS

The existing watercourse and the post-development conditions have both been analyzed in a HydroCAD model and the following table has been made to illustrate the pre- and post-development impacts.

Existing Drainage Ditch Runoff Rates (CFS)			
Design Storm	Eastern Drainage Ditch Runoff Rates (cfs)	Western Drainage Ditch Runoff Rates (cfs)	Combined Runoff Rates (cfs)
1-Year (CPv)	2.02	3.62	5.63
10-Year (Qp)	8.02	8.58	16.60
100-Year (Qf)	19.22	16.20	35.41

PEAK FLOW ATTENUATION RESULTS:

Existing Drainage Ditch vs. Proposed Stormwater System Runoff Rates (CFS)			
Design Storm	Existing Drainage Ditch Runoff Rates (cfs)	Proposed Stormwater System Runoff Rates (cfs)	Difference (cfs)
1-Year (CPv)	5.63	0.00	-5.63
10-Year (Qp)	16.60	0.99	-15.61
100-Year (Qf)	35.41	21.41	-14.00

Please note: Existing drainage ditch runoff rates are combined values from the western and eastern ditches

As illustrated in the table above, the proposed NYSDEC SMP I-4 Underground Infiltration System significantly attenuates and reduces the discharge rates of the 1-, 10- and 100-year storm events.

CONCLUSION

The proposed development has been designed in accordance with all local and state stormwater design requirements and fully satisfies the NYSDEC Unified Stormwater Design Criteria for Water Quality Volume (WQv), Runoff Reduction Volume (RRv), Channel Protection Volume (CPv, 1-year storm event), Overbank Flood (Qp, 10-year storm event), and Extreme Storm (Qf, 100-year storm event).

The proposed stormwater management facilities have been designed to capture and treat 100% of newly created impervious surfaces, which fully encompass the existing contributory area to the drainage ditches/ watercourses.

Therefore, the proposed development does not pose any negative impacts and properly manages and reduces stormwater runoff from the site for all design storms.

TOWN CLERK'S OFFICE

Dear Supervisor Kenny and Members of the Town Board:

My client 283 NMR, LLC. Is attempting to develop two residential lots at the rear of 283 N. Middletown Road, Pearl River.

The Town in 2008 changed the Zone on the property for the benefit of the prior owner. However, the change required an additional land area of 0.156 sq. ft. to permit the new owner to obtain the 2 lots.

Accordingly, I enclose (1) a Petition for the Zone Change and (2) a Entity Disclosure Form.

The client respectfully requests that this matter be placed on the next Town Board Agenda for final consideration.

If you require additional information feel free to call me.

Very truly yours,

Donald Brenner

IN THE MATTER OF THE
PETITION OF
283 NMR, LLC
AMENDMENT TO THE ZONING ORDINANCE
OF THE TOWN OF ORANGETOWN FROM AN
"MFR" DISTRICT TO AN "RG " DISTRICT
-----X

PETITION

TO THE TOWN BOARD OF
THE TOWN OF ORANGETOWN

The undersigned Petitioner respectfully petitions your Honorable Board as follows:

FIRST:

283 NMR, LLC, is the owner of property located in the hamlet of Pearl River,
more particularly bounded and described in Addendum A, annexed hereto.

SECOND:

The property described in Addendum A is known and designated on the Tax Map
of the Town of Orangetown as:

<u>Section</u>	<u>Block</u>	<u>Lot</u>
68.12	3	24

THIRD:

Annexed hereto and marked Exhibit A is a copy of the Map of the subject of the
Petition; Exhibit B is a copy of the Land Area and Zoning Map; and Exhibit C is a copy of the

Vicinity Map of the subject of the Petition and of the surrounding parcels.

FOURTH:

Annexed hereto and marked Addendum B is the portion of the property which is the subject of this Petition.

FIFTH:

Annexed hereto and marked Addendum C is a list of names and addresses of all owners owning property within 500 feet of the property which is the subject of this Petition as the same appears on the tax roll of the Town of Orangetown.

SIXTH:

The property which is the subject of this Petition comprises approximately 0.156 acres, which is a portion of the full tax lot which comprises 1.83 acres. However, in 2008 the Town Board granted a zone change of 0.54 acres from MFR to RG. The zone change was granted so that the prior owner could build their own house on the property which was adjacent to their Business. The new owner does not want to live on the property. Therefore, this slight difference would enable them to use the property for two residential lots.

SEVENTH:

Said property is presently zoned "MFR".

EIGHTH:

Pursuant to the Town Law of the State of New York, and the Zoning Ordinance of the Town of Orangetown, Petitioner hereby requested that the Zoning Ordinance be amended to place a portion of the aforesaid real property, as described in and shown in Exhibit C, in an RG Zoning District, which would allow the development of two residential houses within the zone.

NINTH:

That said proposed change would be compatible with the present and proposed use of the adjoining and neighboring properties to the west and south.

TENTH:

That said proposed use would be in the public interest of the residents of the Town of Orangetown in that:

(A) the development of the property under an RG Zone would establish a new tax ratable;

(B) the development of the property under an RG Zone would fill a need for a residents in the Town of Orangetown;

(C) the development of the property under an RG Zone would be consistent with the general character of the immediate area surrounding the subject premises, which is principally residential and zoned RG. In fact, a residency adjacent to the Town's street would be more desirable than the development under the existing zone;

(D) the development of the parcel under an RG Zone would permit the developer to install public water and sewers to this location and accommodate the Town in its Cherry Brook Drainage Project; and

(E) the granting of such relief as is sought in this Petition will be the most appropriate use of the subject parcel, will promote the general health and welfare of the community, will preserve property values and will be beneficial to the owner.

ELEVENTH:

That the parcel which is the subject of this Petition can best be developed under

the proposed RG Zone.

TWELFTH:

That the subject premises are not within 500 feet of any of the following:

- (1) any City, Town, or Village boundary line;
- (2) any County or State park or recreation area;
- (3) any right-of-way of any State park or recreation area, expressway, or other limited access highway;
- (4) any County or State land on which a public building or institution is situated.

THIRTEENTH:

That the overall project is within 500 feet of a County Road, North Middletown Road, but the parcel on which the Petitioner is seeking re-zoning is not within 500 feet of the County Road.

WHEREFORE, Petitioner respectfully prays that your Honorable Board take such steps and such action as may be necessary to grant the relief sought in this Petition.

Dated: April 1, 2024

Respectfully submitted,

Sir / Madam:

The John M. Perry Post No. 1044 of The American Legion will once again be holding our annual Memorial Day Ceremonies and Parade. We conduct a Memorial Day Ceremony in Palisades NY that starts at 9am, and a Memorial Day Parade followed by Ceremony in Sparkill that starts at 11:30am. Both of these are being held on Monday, May 27th, 2024.

Attached are the permit applications for these two events, along with a certificate of insurance and details regarding the parade route and barricades needed.

Besides approval of the applications, it is requested the Orangetown Town Board authorize assistance from the Highway, Parks and Police Departments to facilitate these two events, including road closures.

Please contact me at 845-709-1631 (cell) if you have any questions or concerns.

Sincerely,

David B. Mart

Sir / Madam:

The John M. Perry Post No. 1044 of The American Legion will once again be holding our annual Memorial Day Ceremonies and Parade. We conduct a Memorial Day Ceremony in Palisades NY that starts at 9am, and a Memorial Day Parade followed by Ceremony in Sparkill that starts at 11:30am. Both of these are being held on Monday, May 27th, 2024.

Attached are the permit applications for these two events, along with a certificate of insurance and details regarding the parade route and barricades needed.

Besides approval of the applications, it is requested the Orangetown Town Board authorize assistance from the Highway, Parks and Police Departments to facilitate these two events, including road closures.

Please contact me at 845-709-1631 (cell) if you have any questions or concerns.

Sincerely,

David B. Mart

AGREEMENT made this 8th day of MAY, 2024, by and between the VIETNAM VETERANS OF AMERICA, CHAPTER #333, INC., organized and existing under the laws of the State of New York, with offices at 17 SANDSTONE TRAIL, NEW CITY, NEW YORK 10956 (hereinafter referred to as "VVA #333"), and the TOWN OF ORANGETOWN, a municipal corporation, having its offices at 26 Orangeburg Road, Orangeburg New York (hereinafter referred to as "TOWN");

WHEREAS, in furtherance of its mission and goals, VVA #333 wishes to hold and/or sponsor a Watchfire display, honoring and commemorating service members who are in service abroad and the troops who did not return from battle, to be burned at the property of the TOWN located at NIKE PARK, Nike Lane, Orangeburg, New York (at the old Radar Area) on Wednesday, May 29, 2024 at approximately 11:30 p.m. through Friday, May 31, 2024 until the fire is put out; and

WHEREAS, in accordance with the provisions of the Town Code, and related regulations, VVA #333 has made application for an Outdoor Burning Permit, permitting a Watchfire (open burn) display; and

WHEREAS, as a condition for an Outdoor Burning Permit of this type, the applicant VVA #333 agrees to all conditions of the Outdoor Burning Permit issued by the Bureau of Fire Prevention; and understands that the Town of Orangetown Code Enforcement Official or Orangeburg Volunteer Fire Department or their representative may extinguish or cause to be extinguished any open fire for which a burn permit has been issued if, in their professional opinion, such fire is in violation of the conditions of the Permit, is creating a public nuisance, is endangering or is likely to endanger any person's health or property or if the burning is being conducted in an unsafe manner; and

WHEREAS, as a condition for an Outdoor Burning Permit, the applicant VVA #333 has agreed to make notification to ROCKLAND COUNTY FIRE CONTROL (44 Control) **before starting and upon completion by calling 845-364-8888**.

WHEREAS, as a condition for an Outdoor Burning Permit of this type, the applicant VVA #333 is required by the TOWN to meet certain minimum insurance and indemnification requirements naming the TOWN, as the permitting agency, as an additional insured thereon,

NOW, THEREFORE, IT IS AGREED AS FOLLOWS:

1. Subject to VVA #333's compliance with all other requirements of law relating to the issuance of an Open Burning Permit by the Bureau of Fire Prevention, the TOWN agrees to the issuance of an Outdoor Burning Permit to VVA #333 in connection with its Watchfires display to be burned at NIKE PARK property located at Nike Lane, Orangeburg, New York on Wednesday, May 29, 2024 through Friday, May 31, 2024 until the fire is completely out.
2. VVA #333 agrees that its' activities under the Outdoor Burning Permit will be performed in a lawful, prudent and safe manner, in accordance with all federal, state or local laws or regulations, as may apply.
3. In connection with the contemplated Watchfires display, VVA #333 further agrees, to the fullest extent permitted by law, to indemnify and hold the TOWN, its officers, employees and invitees harmless from any damage, liability or cost (including reasonable attorneys' fees and cost of defense) to the extent caused by the acts, errors or omissions by it, its officers, employees, agents, consultants or others acting for, or on behalf of, it, which indemnification shall include and extend to the actions of any subcontractors or outside consultant utilized by VVA #333.
4. VVA #333 further agrees that as a material condition of the Permit's issuance, and before the subject Permit shall become effective, it shall deliver to the TOWN certificates or other evidence of insurance coverage of the following types and in the following minimum amounts:
 - a. General Liability Insurance in a minimum amount of One Million and 00/100 (\$1,000,000.00) Dollars combined single limit with Two Million and 00/100 (\$2,000,000.00) Dollars excess of One Million and 00/100 (\$1,000,000.00) Dollars; and aggregate of Three Million and 00/100 (\$3,000,000.00) Dollars;
 - b. with Umbrella Liability per occurrence of Six Million and 00/100 (\$6,000,000.00) Dollars;
 - c. Such insurance shall name the TOWN OF ORANGETOWN, 26 Orangeburg Road, Orangeburg, New York 10962, as an additional named insured thereon;
 - d. Shall further provide that such policies of insurance shall not be cancelled or discontinued except on a minimum of twenty (20) days' notice to the TOWN; and
 - e. Proof of such insurance in a form acceptable to the Town shall be delivered to the Bureau of Fire Prevention and the Town Attorney's Office before any services or other activities under this Permit shall commence.

Application for Showmobile Use

Showmobile Requirements

Applications must be submitted to the Parks & Recreation Office no later than 8 weeks prior to your event in order to be placed on a Town Board agenda.

There are two pages to this application. Please read and understand all items listed on page 1 (this page) and upload your certificate of insurance.

Before completing the Showmobile Request Form, please be aware of the following:

- + The total area needed for the Showmobile is a space 50 feet in length, 15 feet in width and 25 feet in height.
- + Showmobile stage measures 28 feet long x 14 feet 7 inches deep x 25 feet high when open. One set of stairs is available with hand railings. (Please note that this measurement does not include the trailer hitch or the tow vehicle).
- + The lights require a 110 volt, 20 amp circuit to plug into within 150 feet of the right front side of the Showmobile. Additional electrical equipment must be plugged into a separate circuit.
- + The Showmobile must be parked in a relatively level space. The placement of the Showmobile is at the discretion of the Orangetown Parks & Recreation staff. Although every effort will be made to meet requests, this equipment does not go off road, over curbing, on uneven ground or over rough terrain.
- + The area must be free of obstructions such as overhanging tree limbs, electrical wires, etc.
- + The tow vehicle must remain with the Showmobile for the duration of the event.
- + In the event of winds in excess of 30 MPH, the stage canopy must be closed.
- + The Town seal is not to be covered and no nails, staples, tacks or tape may be used to attach any items to the Showmobile)
- + The organization will receive an emailed invoice after their event is complete. Payment is expected no later than 14 days after receipt of invoice.
- + A member of the organization renting the unit must be on site at time of arrival for proper set up as well as time of departure to assure all event tasks have been completed (i.e. removal of equipment)
- + Any changes/cancellations (unless otherwise agreed upon) to the event must be made 24 hours in advance by contacting Aric Gorton at agorton@orangetown.com.

Additional Requirements:

- + Certificate of insurance required. Must name the Town of Orangetown as additionally insured.
- + Rental Costs: \$500.00 plus labor.

Re: Request for permit for procession – if needed

The Parish of St. John Henry Newman (Our lady of the Sacred Heart and St. Johns) is holding a Eucharistic Procession on June 2nd beginning at 9:50 and ending at 10:30. The procession will consist of around fifty persons. It will depart from the Parking lot of OLSH and travel west along Kings Highway to the intersection of Washington street; There turning east until Conklin Avenue; Then, turning north and crossing Kings highway back to the parking lot of OLSH. It is estimated that the time on each section of roadway will be no more than ten of fifteen minutes.

There will be no vehicles in the procession, and all coordination and safety will be provided by volunteers.

We respectfully request the assistance of all appropriate offices including the Orangetown Police, Highway and EMT.

Our contact and coordinator for this event is Ernest Rispoli: 845-304-8849 ernris@gmail.com
