DECISION

DRIVEWAY GRADE VARIANCE APPROVED

To: Donald Brenner (Schuyler Hills)
4 Independence Avenue
Tappan, New York 10983

ZBA # 04-109
Date: 9 / 2 / 04

FROM: ZONING BOARD OF APPEALS: Town of Orangetown

Re: ZBA#04-109: Application of Schuyler Hills Lots 12.2 and 12.3 for a variance from Chapter 43, R-80 zone; Section 6.332 (Grade not to exceed 10%; 11.8 % proposed) for a private driveway to service two single-family residences. Premises are located at 52 Schuyler Road, Blauvelt, New York and are identified on the Orangetown Tax Map as Section 65.15, Block 1. Lots 12.2 & 12.2; R-80 zone.

Heard by the Zoning Board of Appeals of the Town of Orangetown at a meeting held on Thursday, September 2, 2004 at which time the Board made the determination hereinafter set forth.

Donald Brenner, Attorney, appeared and testified.

The following documents were presented:

1. Site development plan Lot #1 dated April 6, 2004 revised July 14, 2004 signed and sealed by Jay Greenwell, PLS.
2. Site development plan Lot # 2 dated April 6, 2004 revised July 15, 2004 signed and sealed by Jay Greenwell, PLS.
3. A memorandum dated February 25, 2004 signed by John Giardiello, Director, Office of Building, Zoning and Planning Administration and Enforcement, Town of Orangetown.

Donald Brenner, Attorney, testified that this 3-lot subdivision has been before the Planning Board for over two years; that the Planning Board has approved the plan with restrictions to limit tree removal; that the roads/private drives are merged to save trees; that the plan was originally submitted by Bill Youngblood showing a 10% profile; that part of the roads grade was not labeled and the Town did not detect this error until after the plan was filed; that the property owner has no recourse against Mr. Youngblood since he died; that Mr. Jay Greenwell has taken over the project and has shown that where the contour lines are closer together the grade is 11.7%; that to change the plan to accommodate the 10% grade would mean a lot more disturbance to the area; and that the houses would have automated sprinklers in case of a fire that would be serviced by the well.

Jay Greenwell, Land Surveyor, testified that to follow the profile/grading/site plan that was stamped and filed the plan would need to change; that in some areas it would be a slight change but in others the cut to the land would be much deeper causing a lot more disturbance to either side of the proposed road; that this would mean higher walls, loss of more trees and a lot more disturbance to the critical environmental area; and that there is a hydrant shown on the plan but he does not know how it would be serviced.

7:13 PM OCT 13 2004

TOWN OF ORANGETOWN

Public Comment:

Greg Talenfeld, 47 Schuyler Road, abutting property owner, testified that he appreciates the Board minimizing the amount of land disturbance; that he owns a fieldstone house about which he has expressed concerns at previous meetings; that he would like any blasting kept to a minimum; that his house does not have a basement; that he would like to express concerns that the Central Nyack Fire Department raised concerning the grade and access to the houses; that the Planning Board required that a fire hydrant be shown on the plans and he would like to know where the developer would be getting water from for the hydrant.

Sloan Wayland, 42 Schuyler Road testified that he understood that a water pump must be put in by Nyack; that their approval is needed for service; that the houses would be serviced by wells; that the Central Nyack Water Company built the main up the hill but it stops at the bottom of Schuyler Road; that they have a separate Fire District because of the gap between their houses and Blauvelt.

The Board members made a personal inspection of the premises on Sunday, August 29, 2004 and found them to be properly posted and as generally described on the application.

A satisfactory statement in accordance with the provisions of Section 809 of the General Municipal Law of New York was received.

The Planning Board as Lead Agency issued a negative declaration for the SEQRA environmental review purposed on February 13, 2002 (PB#02-05).

FINDINGS OF FACT AND CONCLUSIONS:

After personal observation of the property, hearing all the testimony and reviewing the documents presented, the Board found and concluded that:

1. The requested driveway grade variance would not produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Reducing the grade to 10% would required plan changes which would cause serious disturbance to a critical environmental area.
2. The requested driveway grade variance would have no adverse effect or impact on the physical or environmental conditions in the neighborhood or district.
3. The benefits sought cannot be achieved by other means feasible for the applicant other than obtaining a variance.

TOWN CLERKS OFFICE

04 OCT 13 PM 17

TOWN OF ORANGETOWN

DECISION: In view of the foregoing and the testimony and documents presented, the Board: RESOLVED, that the application for the requested driveway grade variance is APPROVED; and FURTHER RESOLVED, that such decision and the vote thereon shall become effective and be deemed rendered on the date of adoption by the Board of the minutes of which they are a part.

General Conditions:

- (i) The approval of any variance or Special Permit is granted by the Board in accordance with and subject to those facts shown on the plans submitted and, if applicable, as amended at or prior to this hearing, as hereinabove recited or set forth.
- (ii) Any approval of a variance or Special Permit by the Board is limited to the specific variance or Special Permit requested but only to the extent such approval is granted herein and subject to these conditions, if any, upon which such approval was conditioned which are hereinbefore set forth.
- (iii) The Board gives no approval of any building plans, including, without limitation, the accuracy and structural integrity thereof, of the applicant, but same have been submitted to the Board solely for informational and verification purposes relative to any variances being requested.
- (iv) A building permit as well as any other necessary permits must be obtained within a reasonable period of time following the filing of this decision and prior to undertaking any construction contemplated in this decision. To the extent any variance or Special Permit granted herein is subject to any conditions, the building department shall not be obligated to issue any necessary permits where any such condition imposed should, in the sole judgment of the building department, be first complied with as contemplated hereunder. Occupancy will not be made until, and unless, a Certificate of Occupancy is issued by the Office of Building, Zoning and Planning Administration and Enforcement which legally permits such occupancy.

TOWN CLERKS OFFICE

04 OCT 13 PM 1:17

TOWN OF ORANGE TOWN

(v) Any foregoing variance or Special Permit will lapse if any contemplated construction of the project or any use for which the variance or Special Permit is granted is not substantially implemented within one year of the date of filing of this decision or that of any other board of the Town of Orangetown granting any required final approval to such project, whichever is later, but in any event within two years of the filing of this decision. Merely obtaining a Building Permit with respect to construction or a Certificate of Occupancy with respect to use does not constitute "substantial implementation" for the purposes hereof.

The foregoing resolution to approve the application for the requested driveway grade variance was presented and moved by Mr. Mowerson seconded by Mr. Munno, and carried as follows: Ms. Castelli, aye; Mr. Mowerson, aye; Mr. Munno, aye; and Mr. Duffy, aye. Mr. Castagna was absent.

The Administrative Aide to the Board is hereby authorized, directed and empowered to sign this decision and file a certified copy thereof in the office of the Town Clerk.
