On behalf of the Nanuet Senior High School's 2018 graduates, we would like to solicit your support by means of a donation to allow us to hold our annual Project Graduation event in June 2018.

We hope that your budget still allows for your continued support for the 2017 Project Graduation, if so, please make sure that your check is made out to Nanuet HS PTSA.

RECEIVED APR 19 2018

April 15, 2018

Mr. Chris Day  
Orangetown Supervisor  
26 West Orangeburg Road  
Orangeburg, NY 10962

Dear Mr. Day:

I would like to introduce myself, I am Cynthia Sampogna resident of Valley Cottage and mother of two children that graduated from the Nyack School District. On behalf of Nyack High Schools PTSA I would like to express our gratitude for the grant last year that supported Project Graduation 2017. I became Co-chair of Project Graduation last year and my youngest being a senior I had thought I would only serve the one year, but I was asked to stay on and Co-chair a few more years which I am so honored to do so.

Project Graduation is such an amazing event for our seniors and a safe fun night where they can be together as class of 2017 one last time before they are off to college. Last year was a very unfortunate year for us because not even 24 hours before graduation we lost one of our students Kailana Koether, such a heartbreak for all of us. We decided to postpone graduation and the students organized a candlelight vigil that evening for Kailana instead. The next evening, we did have graduation and even though we were so happy to see our teens receive their diploma's our hearts were breaking for Kailana and her parents, such a bittersweet time. We had thought about cancelling Project Graduation because we weren't sure how the students would feel about a celebration, but we went through with it anyway. It turned out that our teens really needed one another more than ever and it brought them even closer during such a sad time.

Project Graduation had become even more meaningful than we could have ever imagined that night.

We are in the process of planning our twenty-fifth Project Graduation at Nyack High School for the Class of 2018. I have attached the outline of Project Graduation for you along with our proposed budget.

Based on the attached proposed budget, we are requesting assistance again from the Town of Orangetown for \$750.00 to help defray the expenses of Project Graduation 2018. Combined with donations from parents, businesses, and community groups this will enable us to carry out another memorable, safe substance-free, all night graduation celebration for our Nyack Seniors.

Thank you for your consideration of our request and for your commitment to give youth a safe and healthy future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Cynthia Sampogna', written in a cursive style.

**Description of Project Graduation**

The Nyack High School PTSA is sponsoring Project Graduation for the Class of 2018. This celebration will be modeled after the highly successful Project Graduation events held at our school for the past twenty-three years.

As sponsor of the Nyack High School Project Graduation, we are joining a nationwide network of high schools committed to providing a memorable graduation celebration in a safe environment, one free from the potential tragedy caused by an evening with alcohol and drugs.

Project Graduation will be held June 21, 2018 in Nyack High School, from 11:00 p.m. – 3:00 a.m., and will be given for all members of the senior graduation class of Nyack High School. The activities will primarily take place in the cafeteria, gym, and hallways of the high school and include: music / Karaoke via a DJ, organized games such as basketball, volleyball, etc., electronic games, a photo shop, artisans for caricatures, food and door prizes.

A committee made up of members of the PTSA is coordinating the planning and implementation of Project Graduation 2018. The entire community is being asked to support the event with donations and by volunteering on committees. In this way, we allow all eligible students to attend irrespective of their ability to pay. Our goal is to generate enthusiasm for a lasting tradition of Project Graduation for future graduating classes.

### **Goal of Project Graduation 2018**

Our goal is to provide a substance-free graduation celebration that will include all eligible Nyack High School graduates and keep them safe on one of the most dangerous nights for drinking and driving. We would also like to show students that they could have fun with their friends without having alcohol or other drugs.

**Amount of Grant Request: \$750.00 (see attached budget)**

### **How will the program be elevated?**

Photographs, highlighting the activities of Project Graduation will be taken throughout the evening. Subcommittee chairpersons will submit evaluations with recommendations for the following year. These evaluations will be discussed at the final Project Graduation committee meeting and kept in the annual records for future reference.

## Project Graduation

275 East Central Avenue, Pearl River, New York 10965

**February 2018**

High School graduation night can be the most memorable evening in the eyes of our youth. The **PROJECT GRADUATION 2018 COMMITTEE** has been working all year to continue the tradition started over twenty years ago at Pearl River High School. The event is an all-night, chaperoned, drug/alcohol-free event designed to encourage positive behavior and prevent any graduation night tragedies. The evening's entertainment allows the graduates to relive their childhood. As you can imagine an endeavor like this takes an enormous amount of planning, effort and money.

In past years, donations to fund this event have been requested from local businesses and community members. Perhaps you would like to make **PROJECT GRADUATION** an activity to support. Won't you please consider joining us in making **PROJECT GRADUATION 2018** a safe and memorable event for Pearl River High School's Class of 2018? Your donation will be acknowledged in the evening's Souvenir Program.

Thank you for your support!  
Sincerely,

**The 2018 PROJECT GRADUATION COMMITTEE**

## TZHS PROJECT GRADUATION '18

February 2018

Dear Valued Supporter,

TZHS Project Graduation '18 marks the 27<sup>th</sup> anniversary of our annual supervised, substance free, all-night party for the graduating Tappan Zee High School Seniors. It will be held on June 21<sup>st</sup>, 2018. This project involves community-wide support and financial assistance to reach a common goal: Providing a substance-free and safe environment to celebrate graduation.

Many other communities across the United States have hosted Project Graduation's and in doing so, have reduced the chances of students being injured in alcohol or drug-related auto accidents.

The evening's plans are in the initial stages of planning and will include lots of music with great food, and a variety of activities such as volleyball, basketball, a video game area, ping pong and table games. In addition, we have contracted with an entertainment company for the DJ/karaoke, a jousting ring, an obstacle course, a comedian, and a photo booth.

This celebration is organized by the PTSA with help from the Senior Class, School Administrators, Parents and Local Businesses and Organizations. To make this celebration a most memorable occasion we need to ask you for your support and financial backing. We are asking you to consider a donation of money, prizes or gift certificates. Your donation is tax deductible. If you can assist us, please go to <http://tzhsptsa.org/TZHSProjectGraduation> or complete the enclosed form and mail to:

Dear Mr. Andy Stewart

Graduation Ceremonies for the Class 2018 will be held on Friday, June 1, 2018. Throughout the night, there will be food/beverages, live entertainment, group activities and plenty of fun. Parents and faculty act as chaperones and all activities take place within the school.

Project Graduation is fully sanctioned and supported by the Administration; however, all cost associated with the event must be funded through the generosity of our parents and external supporters of Albertus Magnus High School. We hope you agree that Project Graduation is a worthwhile endeavor and worthy of your support. A self-addressed envelope is included for your donation.

Dear Mr. Dean,

This letter is being presented to you on behalf of the American Cancer Society's 2018 Relay For Life of Rockland County, which will be held from Saturday, June 9th from 2:00 p.m. through midnight at Central Avenue Field in Pearl River.

As you may recall, Relay for Life is an overnight event that takes place in many communities across the country. Teams from businesses, schools and communities come together in support of the fight against cancer. Teams take turns walking around a track and participate in activities, entertainment and ceremonies in which we honor and remember those who have fought cancer. The dollars raised through Relay for Life fund the American Cancer Society's vital cancer research, education, advocacy and patient service programs to defeat this disease.

An outline of the event follows, below, and attached is a location map and a list of items we anticipate needing from the Town of Orangetown Highway Department. We appreciate the loan of these items and whatever else you might suggest to make this a safe and successful event.

Thank you for your support in previous years, and thank you in advance for your support this year. If you have any questions, please do not hesitate to contact me by telephone at (845) 440-2522 or by e-mail at [amanda.batista@cancer.org](mailto:amanda.batista@cancer.org).

Sincerely,

☰ **BACKFLOW PREVENTION DEVICE  
INSPECTOR/TESTER TRAINING**

☰ **Meeting Details**

Description : 8:00am - 4:30pm, 2.0 CEUs

Course code: CBF418KT

This course will help students understand cross connection control and provide them with the knowledge to test backflow prevention devices. Written and practical exams for students to become a NEWWA-certified Backflow Prevention Device Inspector/Tester are given on the last day of the course. Classroom and hands-on instruction will cover cross connections and their health hazards; backflow and its many types; how to test three types of backflow prevention devices; how to choose the appropriate device for a facility; troubleshooting; and regulations and codes. Note that NEWWA certification is universally accepted (except with Aqua-America in Pennsylvania), however, some states such as Massachusetts, Connecticut, and New York require their own certification, separate from the NEWWA certification. This will be discussed during the course.

Location: Boonton, NJ

Dates: Tuesday, June 26, 2018 to Friday, June 29, 2018

RE: Consolidation and/or Shared Services  
SPDES Limits

As you are aware, the Board of Commissioners (Board) requested that the County Executive through the Shared Services Initiative undertake as a topic for consideration the evaluation of the consolidation and/or shared services of wastewater treatment plants and facilities of any municipality with the District. Also, the District along with other municipalities have met to see who might be interested in consolidation and/or shared services.

The NYSDEC has given the Town of Orangetown (Town) proposed new effluent limits. The District and the NYSDEC met on Friday, April 6, 2018 regarding effluent limits. At this meeting, NYSDEC informed the District that a new SPDES permit is being proposed for this facility. The new permit will include effluent limit changes similar to that of the Town. GHD is also working with the Town on their permit changes. Since the Town and the District share an outfall, it is practical that an evaluation be done for both WWTPs.

Pursuant to the District's request, GHD has submitted the attached proposal in the amount of \$34,900 to evaluate the regulatory required effluent limits for the District's Orangeburg WWTP and the Town of Orangetown's WWTP. The study will evaluate the potential of sharing facilities to meet new proposed effluent limits. As part of the proposal, GHD will use the CORMIX model to help evaluate conceptual alternatives including but not limited to combined treatment processes, dilution ratios, outfall pipe discharge, etc. The CORMIX model is going to be helpful in responding back to NYSDEC with regards to the new limits.

Based on the Board's interest in pursuing consolidation and/or shared services, I recommend presenting this proposal in the amount of \$34,900 to the Board for their approval.

Ms. Dianne Philipps, P.E.  
Executive Director  
Rockland County Sewer District No. 1  
4 Route 340  
Orangeburg, NY 10962

Re: Consolidation and/or Shared Services Study Assistance  
Rockland County Sewer District No. 1

Dear Ms. Philipps:

GHD is pleased to submit our proposal to provide professional engineering services to assist Rockland County Sewer District No. 1 with a Consolidation and/or Shared Services Study. It is our understanding that the study will consider the regulatory required effluent permit limits of the District's Orangeburg WWTP and the Town of Orangetown WWTP. These facilities share a common outfall pipe and each will be required to add treatment processes based on changes to their permit requirements. This study will evaluate potentially sharing of existing facilities to meet the permit requirements. GHD has completed individual engineering studies for each facility, which resulted in recommendations for improvements, whereas the District's study will consider combining a portion or portions of the two facilities to comply with permit requirements.

#### SCOPE OF SERVICES

GHD proposes the following Scope of Services to assist the District with their study:

1. Conduct a meeting with NYSDEC to review the approach and goals of the study. Solicit their feedback on potential future additional effluent permit requirements.
2. Evaluate combining proposed unit treatment process upgrades to one of the existing WWTP sites. This will include preparation of a preliminary opinion of costs and a site plan.
3. Assess treatment of residuals and recycle flows from each WWTP.
4. Perform a CORMIX (i.e., mixing zone) model of the outfall pipe discharge into the Hudson River. The CORMIX model will simulate conditions at the outfall pipe discharge, which will benefit the District by providing the following:
  - a. Comparison to NYSDEC determined dilution ratios. The dilution ratio is utilized by NYSDEC to calculate various effluent parameters, including ammonia.
  - b. Evaluation of conceptual alternatives to outfall pipe discharge (i.e., depth, diffuser type, etc.) to improve mixing, which could result in an increase of the proposed ammonia concentration limit.
  - c. A model for the District's use in evaluating future SPDES permit effluent parameters modifications.
5. Assist in preparation of materials and presentation of study findings to Board of Sewer Commissions.

6. Respond to one round of comments from the District and Board of Sewer Commissioners. If any of the comments revises the scope of GHD's work, we will advise the County of the impact to our scope and fee.

#### **SCHEDULE**

GHD will complete our portion of the study and provide to the County within 180 days of a written authorization to proceed.

#### **FEE**

GHD proposes to complete the Scope of Services as outlined above on a lump sum basis of \$34,900, including all labor and expenses. Services will be billed on a monthly basis based on the effort expended.

We look forward to continuing our relationship and providing engineering services to Rockland County for this project.

If you have any questions regarding this proposal, please call.
